Dear Dr. Khubiryants

Let me take this opportunity in thanking you for participating in the recent Toronto Academy of Veterinary Medicines Annual meeting and lectures. Your display and products were well received by our members and they showed great interest in your scopes and products.

As you are aware we have been very pleased with the endoscopes and products that you have provided us with. Not only are your prices reasonable but the products we have purchased are of excellent quality. Furthermore your service and commitment to the products that you supply is exemplary.

Again, many thanks  
Sincerely

Avery Gillick
